Portfolio

ABOUT ME

I'm a Senior Full-Stack Software Engineer with 7+ years of experience building high-performance web applications. Specialized in modern frontend frameworks and robust backend architectures. Experience managing SQL and NoSQL databases, cloud services and deployments in shared hosting and serverless hosting.

FRONTEND

- TypeScript
- React / Next.js / Vue
- Tailwind CSS
- Material UI / Shadcn UI

BACKEND & CMS

- Node.js / Express
- PHP / Laravel
- Sanity Studio / Payload CMS
- Clerk / Better Auth

DATABASES & CLOUD

- PostgreSQL/ MySQL
- MongoDB
- AWS (S3, EC2)
- Vercel / Google Cloud

TOOLS & TESTING

- Git / CI/CD
- Cypress / Jest
- Agile / Scrum
- AI (Claude, Cursor)

WORK EXPERIENCE

Senior Fullstack Developer - ISOL Ingenieria en Soluciones | Mexico City (March 2022 - Present)

- Led frontend architecture and feature development using React, Next.js, TypeScript, NX, Tailwind and Material UI for scalable enterprise solutions.
- Integrated and managed Headless CMS pipelines (Sanity & Craft) to optimize dynamic content delivery.
- Implemented robust REST API integrations and established automated test suites using Cypress to ensure high test coverage and component reliability.

Software Engineer (Remote from Mexico) - PayPal | San Jose, California (May 2022 - February 2023)

- Developed core frontend modules using React and TypeScript within PayPal's highly secure ecosystem.
- Engineered scalable backend services and API endpoints utilizing Node.js, Express, and GraphQL.
- Executed rigorous unit and functional testing workflows across enterprise environments using Cypress, Jest, and Jenkins.

Full-Stack Developer Mid (Remote from Mexico) - Flyingman | San José, Costa Rica (June 2020 - May 2022)

- Built end-to-end web applications featuring responsive user interfaces with Vue.js, React, and Blade.
- Designed and maintained backend RESTful APIs, business logic, and database migrations using PHP and Laravel.
- Conducted comprehensive unit and feature testing following OpenAPI and Swagger standards.

Full-Stack Developer Junior - BPFS | Queretaro (February 2019 - June 2020)

- Spearheaded UI/UX design wireframes and prototypes using Adobe XD and Figma.
- Developed cross-framework web interfaces utilizing Angular, React, Vue.js, and jQuery.
- Delivered backend endpoints and maintained server-side logic with PHP and Node.js.

INDEPENDENT PROJECTS

- **Rollstack** (Next.js, TypeScript, Sanity, Payload, MongoDB) - <https://www.rollstack.com>

Documentation web applications, CMS transition and content management with Sanity Studio and PayloadCMS.

- **The World Club** (React, PHP, Laravel, MySQL) - <https://theworldclub.com.mx>

Ticketing and event platform featuring automated booking systems and Stripe integration.

- **Marhaba Marbella** (Next.js, Express, TS, Prisma, PostgreSQL, Clerk) - <https://marhabamarbella.com>

Luxury concierge marketplace featuring Google and Apple social authentication, and custom email notification workflows.

- **Alpha Wolves Arena** (React, Node, Express, PostgreSQL, TS, MUI) - <https://alphawolvesarena.com>

Startup evaluation platform featuring automated backend cronjobs, verification workflows, and secure S3 file processes.

- **R&C Multimodal** (Vue 3, Laravel, MySQL) - <https://rcmultimodal.com>

Logistics tracking system featuring an interactive Mapbox, real-time shipment monitoring, and PDF report generation.
